A book report on
The Westside Class of '64 Class Reunion
Sixty years later
By Danny Loring

I was assigned a required reading book, *Pride and Prejudice* by Jane Austen. Who wants to read a book about the year 1813? That sucked so here's a better book report.

There's no plot so there's no summary of the plot.

The Reunion Book says it's a good idea to check out the special reunion web site. If you didn't take computer class, you're screwed.

It's good to paste pictures in a book report so here's one:

There's a red circle around that first white box in Google and that's what you put in there.

OR just start with <http://www.westside-64.com> in the first place.

The first problem you run into is what you can and can't see. You can't see ~~shit~~ a lot unless you have a logon and password.

John LaRandeau was one of the smart kids so if ~~you are so dumb you can't figure it out~~ need a little help call or email John. As I said above, computer class would have been handy in knowing stuff about email.

You will do this better than me. Probably 10 or 20 minutes. Took me 4 days.

There's a lot of pictures on the Class of 64 website so you don't have to know how to read good.

The Reunion Book talked about all the information in the website. You can click (that means using left clicker on your mouse [it ain't

really a live mouse girls] to open all sorts of windows listed across the top and down the sides).

LOOK AT ALL THIS! WAY COOL!!!!!!!!!!!!

There's a list of all the committee members with telephone numbers and email addresses. There may be some people you didn't like in high school - too bad.

The big "W" is a movie taken by a Drone (kind of an airplane or helicopter but different) of the entire campus. Use the clicker thingy again.

Lots of classmates are shy so if you want to see if any of your friends are going to attend next year's 60th Reunion, use the clicker.

There's some paperwork that needs to be sent in. ~~Life's a bitch~~ Click again. You can use the new "digital" method to fill it out or print the form and use your pencil.

Ps. One of the other required reading books was Catcher in the Rye by J.D. Salinger. Mr. Salinger had a great command of the English language. I understood the four-letter words better anyway. I'm doing my next book report on this one.
